

Q1

```
rushish@rushish:~$ mkdir logbook
rushish@rushish:~$ cd logbook/
rushish@rushish:~/logbook$ pwd
/home/rushish/logbook
rushish@rushish:~/logbook$ echo "Started the project" > day1.txt
rushish@rushish:~/logbook$ echo "Wrote the plan, then Reviewed with team" >> day1.txt
rushish@rushish:~/logbook$ echo "Started the project" > day1.txt
rushish@rushish:~/logbook$ cat day1.txt
Started the project
rushish@rushish:~/logbook$ echo "Wrote the plan, " >> day1.txt
rushish@rushish:~/logbook$ echo "then Reviewed with team" >> day1.txt
rushish@rushish:~/logbook$ cat day1.txt
Started the project
Wrote the plan,
then Reviewed with team
rushish@rushish:~/logbook$ wc -l day1.txt
3 day1.txt
rushish@rushish:~/logbook$ cat -n day1.txt
     1 Started the project
     2 Wrote the plan,
     3 then Reviewed with team
rushish@rushish:~/logbook$ echo date
date
rushish@rushish:~/logbook$ date
Fri Aug 14 06:46:03 PM IST 2026
rushish@rushish:~/logbook$ hostname
rushish
rushish@rushish:~/logbook$ touch system.txt
rushish@rushish:~/logbook$ date > system.txt
rushish@rushish:~/logbook$ hostname >> system.txt
rushish@rushish:~/logbook$ cat system.txt
Fri Aug 14 06:47:58 PM IST 2026
rushish
rushish@rushish:~/logbook$ ls ~/logbook/ > system.txt
rushish@rushish:~/logbook$ head -n 5 system.txt
day1.txt
system.txt
rushish@rushish:~/logbook$ date > system.txt
rushish@rushish:~/logbook$ hostname >> system.txt
rushish@rushish:~/logbook$ ls ~/logbook/ >> system.txt
rushish@rushish:~/logbook$ tail -4 system.txt
Fri Aug 14 06:50:44 PM IST 2026
rushish
day1.txt
system.txt
rushish@rushish:~/logbook$
```

Q2

```
rushi@rushi:~/logbook$ ls
day1.txt  system.txt
rushi@rushi:~/logbook$ echo 'echo Good Morning' > greet.sh
rushi@rushi:~/logbook$ echo 'echo Today $(date)' >> greet.sh
rushi@rushi:~/logbook$ ./greet.sh
bash: ./greet.sh: Permission denied
rushi@rushi:~/logbook$ cat greet.sh
echo Good Morning
echo Today $(date)
rushi@rushi:~/logbook$ ls -l greet.sh
-rw-rw-r-- 1 rushi rushi 37 Aug 14 19:05 greet.sh
rushi@rushi:~/logbook$ chmod u+x greet.sh
rushi@rushi:~/logbook$ mv greet.sh morning.sh
rushi@rushi:~/logbook$ cp morning.sh morning_backup.sh
rushi@rushi:~/logbook$ chmod go-r morning_backup.sh
rushi@rushi:~/logbook$ ls -l morning.sh morning_backup.sh
-rwx-w---- 1 rushi rushi 37 Aug 14 19:07 morning_backup.sh
-rwxrw-r-- 1 rushi rushi 37 Aug 14 19:05 morning.sh
rushi@rushi:~/logbook$ ./morning.sh
Good Morning
Today Fri Aug 14 07:08:57 PM IST 2026
rushi@rushi:~/logbook$
```

Q3.

```
rushl@rushl:~/logbook$ ls
day1.txt  morning_backup.sh  morning.sh  system.txt
rushl@rushl:~/logbook$ touch temp1.log temp2.log keep.txt
rushl@rushl:~/logbook$ ls
day1.txt  morning_backup.sh  system.txt  temp2.log
keep.txt  morning.sh        temp1.log
rushl@rushl:~/logbook$ echo 'important' > keep.txt
rushl@rushl:~/logbook$ mkdir archive/
rushl@rushl:~/logbook$ ls
archive  keep.txt          morning.sh  temp1.log
day1.txt morning_backup.sh system.txt  temp2.log
rushl@rushl:~/logbook$ ls
archive  keep.txt          morning.sh  temp1.log
day1.txt morning_backup.sh system.txt  temp2.log
rushl@rushl:~/logbook$ mv *.log archive/
rushl@rushl:~/logbook$ ls archive/
temp1.log  temp2.log
rushl@rushl:~/logbook$ ls
archive  day1.txt  keep.txt  morning_backup.sh  morning.sh  system.txt
rushl@rushl:~/logbook$ mv keep.txt important.txt
rushl@rushl:~/logbook$ ls
archive  day1.txt  important.txt  morning_backup.sh  morning.sh  system.txt
rushl@rushl:~/logbook$ rm archive/temp1.log
rushl@rushl:~/logbook$ ls archive/
temp2.log
rushl@rushl:~/logbook$ cat important.txt
important
rushl@rushl:~/logbook$ ls
archive  day1.txt  important.txt  morning_backup.sh  morning.sh  system.txt
rushl@rushl:~/logbook$ rm -r archive/
rushl@rushl:~/logbook$ ls
day1.txt  important.txt  morning_backup.sh  morning.sh  system.txt
rushl@rushl:~/logbook$ cat important.txt
important
rushl@rushl:~/logbook$ cd ..
rushl@rushl:~$
```
